

StraPack JK-5000

AUTOMATIC STRAPPING MACHINE

High Speed - up to 37 straps/minute

32% faster than the JK-5

Energy Saving auto shut off after 10 seconds

Robust, portable design with locking castors

StraPack's new JK-5000 is based on the popular and affordable JK-5 arch machine but features an enhanced speed of up to 37 straps/minute. The machine can run 9mm or 12mm wide PP strap with quick and easy changeover.

FEATURES & BENEFITS

Easy Strap Loading

Insert tip of strap into machine to load. Error lamp indicates when coil is empty.

Auto Re-feed

Automatic reset and re-feed in the event of strap feed failure.

Jam Resistant

An unsealed strap loop is cut and ejected if machine is operated with no package in place

Compact Design

Space saving design featuring coil holder within body frame.

Easy Strap Width Conversion

Runs strap from 9mm to 12mm width with easy changeover.

Advanced Reel Brake System

Smooth braking of strap reel assured without the use of wear parts.
