

StrapPack iQ-400

SEMI-AUTOMATIC STRAPPING MACHINE

Runs PP strap from 5 - 15.5mm

Ready to operate in just 45 seconds

Light, quiet and energy efficient

Dual tension mode for a wide variety of applications

The iQ-400 is StrapPack's latest generation semi-automatic strapping machine. This compact, affordable and reliable semi-automatic strapper has been designed to be energy efficient, easy to maintain and easy to operate.

FEATURES & BENEFITS

Robust Construction, Quiet Operation, Versatile Applications

Durable and heavy-duty. Very quiet to operate. Suited for a variety of environments from offices, to shops to small factories.

Strap Compatibility

Runs strap from 5 – 15.5mm without change parts.

Quick Start Up

Ready to operate in just 45 seconds.

Light, quiet and energy efficient

The iQ-400 is light (56kg), quiet (57.2 dB) and energy efficient (0.35kw).

Dual tension mode

Two, microprocessor-controlled tension modes available: Torque Mode is suitable for stronger tension or springy packs. Stroke tension mode is ideal for delicate packs.

Easy Maintenance

The iQ-400 has few moving parts, meaning less maintenance is required. All electric components are in an enclosed cabinet on one side of the machine. Tool-free access to frequently accessed areas.

Dimensions	Width	780 mm
	Depth	540 mm
	Height	775 mm (with work guide)
	Weight	45 kg
Table Height	750 mm	
Min Package Size	W 100 x H 30 mm	
Joint / Strap / Coil	Heat Seal / Polypropylene / ID 200 or 230 x W 200mm	
Strap / Width / Thickness	5, 6, 9, 12, 15.5 mm / 0.45-0.7mm	
Strap Tension	Max. 450N (45.9kgf)	
Power Supply	100-240V 1 Phase 50/60Hz 0.35kW
