

StraPack RQ-7000M18

FULLY AUTOMATED STRAPPING MACHINE

Automatic strap loading

High speed – 50 straps/minute

Robust, stainless steel construction

Ready to operate in less than 20 seconds

The corrosion-free StraPack RQ7000MV18 fully automated strapping machine is manufactured from stainless steel and waterproof materials. It's ideal in moisture-laden food processing environments such as meat, fish and poultry.

FEATURES & BENEFITS

Useful Features

The RQ-7000MV18 boasts the advanced high-speed sealing head of the RQ7000 and many features of the RQ-8 such as strap self-loading, re-feed and loop ejection.

Moisture Protection Features

Stainless steel construction, fully enclosed cabinet, side sealing design, reinforced lower cabinet, permanently lubricated mechanisms.

Self-Loading Strap

Automatic, self-loading strap eliminates complicated manual threading.

High Speed

The high speed sealing head can strap up to 50 traps/ minute without compromising strap tension. The RQ-7000MV18 is ready to operate in less than 20 seconds, meaning more up time.
