

# **StraPack SQ-800Y**

## **AUTOMATIC STRAPPING MACHINE**

High speed - up to 50 straps per minute

Ready to operate in less than 25 seconds

Robust, portable design with locking castors

Easily fits into conveyor systems

The SQ-800Y with brushless DC Motor is a side-seal model which boasts all of the advanced features of the SQ-800 such as self-loading, refeed and loop ejection.

## **FEATURES & BENEFITS**

### **Dedicated DC Tension Motor**

Less wear parts (i.e. interlock shaft, tension, pulley)  
= improved speed and quieter operation.

### **Easy Maintenance**

Self-lubricating design reduces wear and tear and  
increases operational life.

### **Easy Strap Loading**

Strap loading is as easy as a touch of a lever. There  
is no need to thread the strap.

### **Auto Re-Feed**

In case of a feeding issue, the machine will re-feed  
the strap automatically

### Anti Jam Function

If the SQ-800Y is operated without a package on the table, the strap forms a small loop which is ejected from the sealing unit. The machine then re-feeds ready for the next cycle.

### Advanced Heater Design

SQ-800Y is ready to operate in less than 25 seconds, contributing to increased packaging line efficiencies.

### Variable Tension

A wide range of tension is available via a digitally controlled tension dial. Tension capability is up to 46kgf (equivalent of 150mm stroke). Unlike many other machines in the market, tension does not compromise the cycle speed.

### Standard Specifications (arch size W 600 X H 850 mm)

Dimensions	Width	1500 mm
	Depth	610 mm
	Height	1723 mm
	Weight	180 kg
Min Package Size	W 100 x H 30 mm	
Max Package Size	W 580 x H 820 mm	
Joint / Strap / Coil	Heat Seal/ Polypropylene/ ID 200 x OD 450 x W 200 mm	
Strap / Width / Thickness	5, 6, 9, 12, 15.5 mm	
Strap Tension	784 N (80 kgf) / 450 N (46 kgf) *CE Spec.	
Power Supply	100 - 240V - Single phase 50/60Hz 0.74kVA	

Gordian House, Brunel Road, Houndmills Industrial Estate, Basingstoke, Hampshire RG21 6XX, UK.
