

SQ-800

AUTOMATIC STRAPPING MACHINE

- High Speed - up to 55 straps per minute (even with tension applied)
- Robust, portable design with locking castors
- Foot bar and Adjustable Height as standard
- Ready to operate in less than 25 seconds

FEATURES AND BENEFITS

Dedicated DC Tension Motor

Less wear parts (i.e. interlock shaft, tension, pulley) = improved speed and quieter operation.

Foot Bar

Easy-to-Operate Foot Bar enables faster, two-handed operation.

Adjustable Table Height

Height can be set to 8 positions from floor level for easy integration into existing packaging lines: 794, 809, 824, 839, 854, 869, 884 & 899 mm

Anti Jam Function

If the SQ-800 is operated without a package on the table, the strap forms a small loop which is ejected from the sealing unit. The machine then re-feeds ready for the next cycle.

Easy Strap Loading

Strap loading is as easy as a touch of a lever. There is no need to thread the strap

Auto Re-feed

In case of a feeding issue, the machine will re-feed the strap automatically.

Easy Maintenance

Self-lubricating design reduces wear and tear and increases operational life.

Dimension	Width	1254 mm
	Depth	609 mm
	Height	1403-1508 mm
	Weight	146 kg
Table Height		794, 809, 824, 839, 854, 869, 884, 899 mm
Minimum Package Size		W 80 x H 30 mm
Maximum Package Size		W 620 x H 480 mm
Joint/Strap/Coil		heat seal/polypropylene/
Strap Width		5, 6, 9, 12, 15.5 mm
Power Supply		100 - 240V Single phase 50/60Hz 0.9KVA

Dimensions and specifications are subject to change without notice.

FEATURES AND BENEFITS CONTINUED

Advanced Heater Design

SQ-800 is ready to operate in less than 25 seconds, contributing to increased packaging line efficiencies.

Variable Tension

A wide range of tension is available via a digitally controlled tension dial. Tension capability is up to 80kgf (equivalent of 150mm stroke). Unlike many other machines in the market, tension does not compromise the cycle speed.

Energy Saving Auto shut off

Machine enters standby mode after 3 minutes thereby saving energy.

ABOUT GORDIAN STRAPPING

Gordian Strapping is a leading supplier of strapping, stretch wrapping, stretch hooding and shrink hooding machinery, with a range of stand-alone machines and fully automated end-of-line packaging systems.

Our machines are installed and maintained by our team of experienced service engineers across the UK and Ireland.

Gordian is also a leading supplier of PP Strapping, PET Strapping, Banding Tape and Stretch Wrap. Established in 1937, Gordian is a division of the StraPack Corp., a world class manufacturer of strapping machines. Gordian has represented OMS for over 35 years.

Established in 1949, OMS is a leading manufacturer of pallet strapping, wrapping and hooding systems.
