GORDIAN
STRAPPING

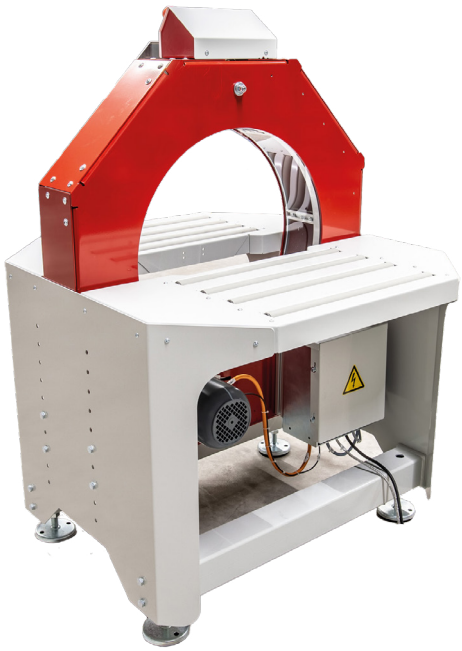
CL 010 - 400 / 600 / 800

Horizontal wrapping machine

Wrapping ring speed 2.9 / 2.2 / 1.7 (per second, maximum)

Roll core / film accommodation mandrel available in Ø 38 mm

Product cross section (mm) 400 / 600 / 800 (maximum)



The CL010 is designed for the manual application of film to applications such as long products, staked products, tray packaging, cardboard boxes and sheet formats.

Fully UK CA and CE compliant this manually operated Circle Line wrapping machine operated via foot pedal facilitates the smooth and safe application of film to your product.

Features and Benefits

Tongue in wrapping area

The tongue in the wrapping area is an aid for supporting flexible and/or short products during transfer from the infeed to the outfeed conveyor and holding them in place even more securely during the wrapping process. Used for stack packaging, tray packaging, cardboard boxes and sheet formats.

Manual lateral guide

This unit consists of a pair of lateral guide rollers, which can be width-adjusted.

Product cross section (mm)	400 / 600 / 800 (maximum)
Wrapping ring speed	2.9 / 2.2 / 1.7 (per second, maximum)
Film width	80 mm (maximum)
Film roll exterior	120 mm (maximum)
Roll core / film accommodation mandrel	Available in Ø 38 mm (1.5“)
Electrical Connection	Mains voltage 230V+N+PE Power plug 16A / Schuko Control voltage 24 VDC
