RQ-7000MV18

Automatic Strapping Machine

Automatic strap loading

High speed - 50 straps per minute

Robust, stainless steel construction

Ready to operate in less than 20 seconds

The RQ-7000MV18 is a fully automated strapping machine constructed from stainless steel and waterproof materials, with advanced high-speed sealing capabilities. It is ideally suited for moisture-laden food processing environments, including meat, fish and poultry production.

Features and Benefits

Innovative Design

Moisture protection features: stainless steel construction, fully enclosed cabinet, side sealing design, reinforced lower cabinet, permanently lubricated mechanisms.

High Speed Sealing

The high speed sealing head can strap up to 50 bundles without compromising strap tension.

Self-Loading Strap

Automatic, self-loading strap eliminates complicated manual threading.

Ready to Operate Quickly

The RQ-7000MV18 is ready to operate in less than 20 seconds, meaning more up time.

Easy to Operate

The RQ-7000MV18 is a fully automated machine, for use in Conveyor lines (no roller table).
