GORDIAN
STRAPPING

StraPack SQ-800IR3

Automatic Strapping Machine

- High speed - up to 60 straps per minute
- Ready to operate in less than 25 seconds
- Compact: space efficient design with internal reel unit
- Hands-free operation: integrated foot pedal

The StraPack SQ-800IR3 succeeds the RQ-8IR3 as part of Gordian's robust packaging equipment range. This high speed automatic strapping machine is equipped with self-loading, refeed and loop ejection and benefits from a very compact body. The SQ800IR3 is ideal for cash processing centers, mailing and printers.

Features and Benefits

Dedicated DC Tension Motor	Less wear parts (i.e. interlock shaft, tension, pulley) = improved speed and quieter operation.
Foot Bar	Easy-to-operate foot bar enables faster, two-handed operation
Easy Maintenance	Self-lubricating design reduces wear and tear and increases operational life.

Anti Jam Function

If the SQ-800IR3 is operated without a package on the table, the strap forms a small loop which is ejected from the sealing unit. The machine then re-feeds ready for the next cycle.

Advanced Heater Design

SQ-800IR3 is ready to operate in less than 25 seconds, contributing to increased packaging line efficiencies.

Variable Tension

A wide range of tension is available via a digitally controlled tension dial. Tension capability is up to 46kgf (equivalent of 150mm stroke). Unlike many other machines in the market, tension does not compromise the cycle speed.

Dimensions	Width	1052 mm (including handles)
	Depth	609 mm
	Height	1445 mm
	Weight	161 kg
Table height	936 mm	
Min package size	W 80 x H 30 mm	
Max package size	W 620 x H 380 mm	
Joint / strap / coil	Heat Seal/ Polypropylene/ ID 200 x OD 450 x W 200 mm	
Strap width / thickness	5, 6, 9, 12, 15.5 mm	
Strap tension	Up to 450N (46kgf), 150mm stroke	
Power supply	100-240V - Single phase 50/60Hz 0.74kVA
